| Azoto Caps  | 5 caps  | —       | —       | —       | 5 Caps  |
| PSB Plus    | 5 caps  | —       | —       | 5 caps  | 10 Caps |
| Potash Grow | —       | —       | 5 caps  | —       | 5 Caps  |
| Zinc Grow   | —       | 5 caps  | —       | —       | 5 Caps  |

Improves flowering, fruit set & long-term soil health.

**Horticulture & Vegetables additional note:** Schedule prepared based on average crop life cycle. Application dosage and frequency can be increased or decreased depending on specific crop duration, growth stage and field conditions.

## Important Notes

---

1. All schedules per **2 hectares** — scale proportionally for your treated area.
2. **Strain matching for legumes:** Rhizo Caps must be strain-matched — confirm with SPANEX before order.
3. **Soil moisture required:** All biological products require adequate soil moisture for activation.
4. **Compatibility:** Do NOT mix with chlorinated water, copper-based fungicides, or bactericides.
5. **Storage:** Store capsules in cool, dry conditions — shelf life 16+ months at ambient.
6. **Validation:** Schedules to be validated against Australian field conditions.
